

The 10 Steps to Safety Excellence

Webinar Series

The 10 Steps to Safety Excellence is a new series of webinars developed for the leadership team. It consists of a combination of webinars that are designed to support the leadership team in their effort to promote safety at the site level.

**Module 1. Leadership First, Not Safety First.
(10 Steps to Safety Excellence)**

Module 2. The Supervisor & The Safety COACH.

Module 3. SAFETEAM. A Common Mindset.

Module 4. Error Prone, Human Error Awareness.

Module 5. A Reporting Culture.

In this webinar we cover Module 1. Leadership First, Not Safety First. 2 Hour Webinar with Q&A.

The idea is to review the 10 steps and challenge the team.

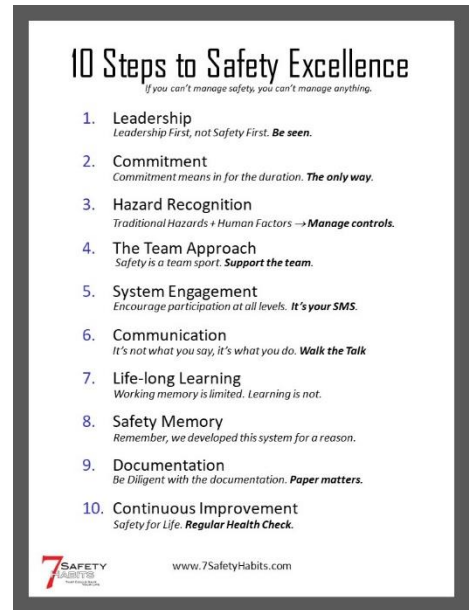

Real World. The list was created after a mine disaster resulting in the death of 27 miners and the complete destruction of the mine. The disaster led to numerous legal challenges and resulted in a commission that discussed many of the steps included in the list. (Note: The focus is not on mining, its on safety management in general)

Presenter: Wilson Bateman, Author & International Speaker. President, Global Training Edge Inc. 30 years safety experience working with Fortune 500 companies.

The webinar is designed to be engaging, thought provoking, and challenging.
